Framework. For instance, the Counterterrorism Law's local version in Xinjiang (The Counterterrorism Law and the Regulations of Xinjiang Uygur Autonomous Region on Deradicalisation) has become a tool against ethnic minorities, especially Uyghurs. Surprisingly, the white paper strongly defends the legal provisions adopted by the Central government. For example, there is effusive praise for the judicial mechanisms, law-making, and enforcement arms of the government for implementing the laws in their letter and spirit. Further, the pa-"People's War on Terror" two decades has been Counterterrorism Legal per claims that "under the principle of legality, no one should be convicted of a terrorist crime for any reason if there are no explicit provisions in law." However, the reports of several international agencies, bodies, and organisations have clearly stated that in the last few years, many Uyghurs have been detained for no fault or reason and are subjected to immeasurable

atrocities. The claims that the law enforcement agencies follow "statutory principles," pursue the "principle of proportionality," and put in place a strict "accountability system" are utter lies and a mere eyewash. Furthermore, the claim that "judicial administrative agencies have ensured transparency in prison affairs" is not true, as the Chinese government is yet to come clean in the case of the imprison-
